

County High Commencement

Commencement exercises of the Montgomery County High School began last Sunday evening when an immense crowd assembled at the Christian church to hear the baccalaureate sermon delivered to the graduating class by the Rev. Charles A. Ray, pastor of the Presbyterian church. The sermon was an able one—one that will do much good, not only to the members of the class, but to everyone who heard it.

The class day exercises of the County High School, which were held at the school Tuesday morning, was one of the prettiest programs given by a class in recent years. The seven girls, composing the class, wore dresses made by themselves, carrying out in a rather unique way in the color of their costumes the general effect of the rainbow. The following program was rendered:

Invocation—Rev. Clyde Darsie.

President's Address—Nancy Oldham.

Piano Trio (Streabogg)—Anna Clay and Linnie Hoskins and Roxanna Hastie.

Class Lamentations—Bessie West.

Class Prophecy—Rebekah Oldham.

Piano Solo—Sabbath Chimes (Behr)—Nellie Guy.

Class Oration—"Success Our Aim; Our Hope to Win"—(Presenting the Class Key to the Juniors)—James Barnes.

Reply—(By a Junior Accepting the Key in Behalf of the Junior Class)—Nellie Guy.

Vocal Solo—Three Lucky Lovers (Sudds)—James Barnes.

Class Cartoons—Roxanna Hastie.

Class History—Rena Steele.

"The 'Phone Bell Rang" (Heyser)—Class Chorus.

Class Scrap-bag—Annie Oldham.

Benediction.

Class Roll—James Barnes, Roxanna Marguerite Hastie, Annie Prewitt Oldham, Nancy Anderson Oldham, Rebekah Moss Oldham, Rena Vansant Steele and Bessie Lee West.

At the commencement exercises of the evening Dr. Fortune, pastor of Central Christian church, Lexington, delivered the address to the class in his own able and inspiring way.

Delightful choruses were sung by the music students of the school, under the direction of the capable and enthusiastic music teacher, Mrs. S. F. Hamilton.

Miss James Barnes received first honors, while Miss Roanna Hastie was given second honors.

Four prizes were offered by the friends of the school for the four best dresses made by the girls. The following awards were made:

For the best graduating dress, Miss Rena Steele; for the best silk dress, Miss Rebekah Oldham; for the best middie suit, Miss Eva Pasley; for the best gingham dress, Miss Mildred Phipps.

Appreciation of Mrs. Reid's kindly and efficient assistance with the music on the program was expressed in the form of a beautifully decorated cake made by the girls of the cooking class.

On the whole it was one of the best commencements we have had for a long time.

The commencement program, follows:

Invocation—Elder Bruce Trimble.

Impromptu (Reinhold)—Miss Rena Clark.

Chorus—(a) Keep Your Face to the Sunshine (Klickman); (b) Come Now and Haste Away (Folksong); (c) Spring Morning (Weber).

Address—Dr. A. W. Fortune.

Bohemian Girl (Dorn)—Miss Genevieve Settles.

Presentation of diplomas.

Chorus (a) Morning (Kuechen); (b) Twilight (Abt).

Benediction.

FOR WOMEN

Holeproof Clocked Hose, \$3.00 qualities this week cut to \$2.35.—THE WALSH CO.

MRS. TYLER ILL

A message received here yesterday from Belvud J. Tyler announces the critical illness of his mother, Mrs. Matt Tyler, at her home in Grainger, Wash. Mrs. Tyler's many friends will be grieved to learn this sad news.

The Advocate, twice-a-week.

Freight Rates Cut 10 Per Cent

Reductions in freight rates averaging about 10 per cent were ordered yesterday by the Interstate Commerce Commission in a decision resulting from its inquiry into the general structure of the nation.

The cut in freight rates was fixed by the commission at 14 per cent in eastern territory; 13 1-2 per cent in western territory and 12 1-2 per cent in the southern and mountain and Pacific territories. All reductions ordered are effective July 1 and constitute a greater cut than was generally expected.

The commission, in ordering the decreases—which are on a horizontal basis—held that the nation's railroads are entitled to earn 5 3-4 per cent on the value of their property rather than the approximate 6 per cent fixed as a reasonable return in the transportation act of 1920.

Transportation charges on passenger travel and Pullman charges were left unaffected by yesterday's decision.

Agricultural products will not be affected by the reduction granted under the commission's order yesterday. The reduction of 16 1-2 per cent made in the western hay and grain rates last fall and the voluntary 10 per cent cut made in all agricultural products by railroads on January 1 will be substituted for the decision on these commodities.

FOR WOMEN

Special Sale of Holeproof Hose. This week \$2.50 qualities cut to \$1.75.—THE WALSH CO.

May Pool Blue Grass Seed Crop

A meeting is being held at the court house this afternoon by the farmers of Montgomery county who produce blue grass seed for the purpose of ascertaining the sense of the producers in regard to forming a pool. Mr. Penn Taylor, of Winchester, is authority for the statement that sixty per cent of the Clark county crop is in favor of a pool and it is likely Clark county will "go in." While there is a large crop this year, it is not going to be nearly as big as originally estimated, and it is believed if the farmers will get together a fair price will be realized.

FLOWER SALE

Annual sale of plants, also cut flowers for Decoration Day, Monday, May 29.—Maysville street, opposite courthouse.

Fire In Treadway Brothers' Grocery

Wednesday afternoon at 3 o'clock the fire alarm was turned in and but for the prompt response and effective work of the fire department there would have been heavy loss to property and merchandise owners. The fire was in the store and apartment building of Lefe Risner on Queen street near Locust, a new two-story frame structure, the first floor occupied by Treadway Bros. with groceries and meats and the second floor by families. The fire was caused by a gas explosion in a small department where the gas meters are located. The odor of escaping gas caused Mr. Treadway to enter this dark room and a lighted match caused the explosion and ignited that part of the building. Damage to the building as well as stock was covered by insurance.

TO HOUSEKEEPERS

The Mt. Sterling Laundry would suggest that our housekeeping patrons look over their home furnishings and should they discover that any of them need renewing that they advise them at once. At this season of the year laundry work is heavy and in order to receive quick service it is necessary that we have them as soon as possible. If you have curtains or any other items call No. 15 at once and we will have a truck at your door in the shortest time.

EXCHANGE ON MAY 26 AND 27 at Sutton's store. Flowers and everything good to eat. (pd)

You cannot dream yourself into a character; you must forge and hammer yourself into one.

Octogenarian But a High Flier

Adolph Mullen, 85 years old, a retired farmer, saw an aeroplane for the first time a week ago, and decided to fly from Queens Aerodrome, Long Island, to his old farm near Albany. He says he enjoyed the thrill of his young life. Photo shows the aged flier waving good-bye as plane left the ground.

Wills Acquitted of Murder Charge

After deliberating but a few minutes, the jury brought in a verdict of not guilty in the case of the commonwealth against Henry Wills, charged with the killing of Henry Burgess in Powell county last December. The case was heard before Judge Henry R. Prewitt in circuit court yesterday, Charles D. Grubbs, acting prosecuting attorney, with C. W. Nesbitt and Tom Grubbs attorneys for the defense. A large number of witnesses were examined and the entire day was given over to the hearing of the case.

Wills, who killed Burgess with a single tree during a fight, claimed that he acted in self-defense. Immediately after the affair Wills drove to this city and gave himself up to the authorities. Burgess was brought here to the Mary Chiles Hospital, where he died as a result of the blow.

FRUITS AND VEGETABLES CIRCUS DAY AND SATURDAY

We have all the fresh market vegetables.

Lettuce, potatoes, onions, cucumbers, beans, peas, etc.

Home-grown fruits, strawberries, apples, cherries, raspberries.

Oranges, lemons, grapefruit.

You get fresh stock at lowest prices from Ayres & Co.

Twilight League To Be Organized

Lonnie Barnard is behind a movement to organize a Twilight Baseball League among the young business men of the city. It is proposed to have four teams in the field and two games a week are to be played. Practice and play will not start until working hours are practically over (something around five o'clock) and it is hoped in this way not to let business interfere with pleasure, and at the same time afford a means for young men to so exercise their muscles as to prove a lasting benefit. All those interested in the movement are invited to report at the ball park. Details of the organization will be given out as completed.

Extra quality women's Holeproof Hose, \$1.00 qualities cut this week to 75c.—THE WALSH CO.

Mt. Sterling Athletes Win Honors at Meet

The Central Kentucky District Track meet, comprising the high schools of Paris, Carlisle, Lexington, Cynthiana, Mt. Sterling and Flemingsburg, was held last Friday on Hancock Field, Paris, and representatives from the local high school covered themselves with glory, winning many of the events, and finishing second in the meet.

Winning the 100-yard dash was Cecil Davis, with Coons third. In the one-mile run Duerson Prewitt came second. Davis won the 220-yard dash. In the pole vaulting Garrison came third. Davis won the 440-yard dash. In the shot putting Tom Coons won first, and in the relay race Mt. Sterling came a close second.

Mt. Sterling At Maysville Today

The Mt. Sterling baseball team left this morning for Maysville, where it will meet the undefeated league leaders this afternoon (weather permitting) and have hopes of causing the Mason county outfit to drop their first game. Since last Sunday's game Manager Ellis has secured three new players, a third and second baseman and a pitcher, all of whom will probably be in the lineup this afternoon. They are said to be high-class ball players and will likely be given an opportunity to show what they have got. Other games today are Lexington vs. Winchester and Cynthiana vs. Paris.

Sunday the local team will journey to Cynthiana, where they have confidence of annexing another win to their credit. "Lefty" Townsend will likely be in the box on this occasion.

The question of changing the league schedule to four games a week instead of two will be definitely decided at a meeting to be held at Paris tonight.

AT CORNWELL GROCERY

You get the best meats here at the lowest prices. They are properly cut.

Beef, lamb, pork, veal.

All vegetables in season.

All fruits in season. Cherries, strawberries, bananas, apples.

Our canned goods go at a price.

Hoffman Addresses Executive Meeting

At a meeting of the heads of the various Chambers of Commerce of the Blue Grass held in Georgetown Tuesday, H. G. Hoffman, president of the local chamber, was on the program, his subject being, "The Inactivity and Possible Final Abandonment of Some Boards of Commerce—The Remedy." Mr. Hoffman made a splendid talk in his unique and characteristic manner, and to say that he made a decided "hit" with all present is expressing it quite mildly. On the program was also Prof. R. W. Kincaid, of our sister city of Owingsville, who spoke on "Is a Board of Commerce Worth While?" Prof. Kincaid also created quite a favorable impression and drove home some splendid facts.

Other speakers on the program were: C. W. Jewett, of Cynthiana; Rev. Homer Carpenter, of Richmond; Mr. Morrison, of Lexington, and I. W. Boswell, of Georgetown.

DOG FOR SALE—Pedigreed Rip-Rap pointer puppies.—R. D. Shroat, phone 648, Mt. Sterling. (62-4t-eot-pd)

6,000,000TH FORD BUILT MAY 18

The six millionth Model "T" Ford motor was produced May 18 in the Ford factory at Detroit. In other words, from the time back in 1908 when the Ford Motor Company began marketing the now famous Model "T" motor car until May 18, 1922, a total of six million Ford cars and trucks have been produced. Out of this total 5,517,956 were delivered to purchasers in the United States alone, and according to the latest statistics, 4,478,248 of these Ford cars and trucks are still in daily service.

Thus, it will be seen that out of every five Ford cars and trucks sold to retail purchasers in the United States alone during the past fourteen years, four are still in actual daily use, which is really remarkable when the hard service of commercial cars is taken into consideration. This seems to forcibly confirm the popular knowledge of the longevity of all Ford cars.

That Ford products have been quite evenly distributed throughout the United States is borne out by the fact that through the sparsely settled communities in the west to the densely populated cities of the east, practically the same ratio of Ford cars and trucks to population exists.

Ohio leads with a total of 290,769 Ford cars and trucks in daily use; Illinois comes second; Pennsylvania third; Texas fourth, and Michigan is fifth, with a total of 234,081. New York, Iowa and California follow in the order named, each having more than 200,000.

An idea of the important part played by Ford cars and trucks in the daily transportation of goods and persons in the United States can be gained by realization of the fact that with the Ford cars now in operation, averaging a minimum of 5,000 miles per each year, they would pile up a total of twenty-five billion transportation miles—equivalent to more than a million trips around the world.

SILVER TEA

The local chapter of Girl Scouts is having a silver tea this afternoon from three to five and tonight from seven to nine. The public is cordially invited to attend.

DO YOUR MARKETING AT WALCH'S STORE

Best cured meats in the city. Home grown strawberries. Fruits of all kinds. Spring vegetables received daily. For your lunch try our Roquefort and Swiss cheese, frankfurters and goose liver sausage. Yeast, salt risen and rye bread.—J. A. Walch, Bank and Main streets.

THOMAS COLLIER DEAD

Thomas Collier died at his home near Springfield church, Bath county, Wednesday from dropsy at the age 82 years. Burial took place at Mt. Zion church, Nicholas county, on Friday.

ALUMINUM KETTLES

Right now is the time to buy preserving kettles. Special for this week, 8-quart kettles for 75; 10-quart kettles for 95c.

Prepare for the fruit season—Mason glass jars—pint, quart and one-half gallon. The Fair.

Free Military Training Offered to Young Men

Prompt action is necessary if the young men of this section expect to be the guests of Uncle Sam at Camp Knox when the government will hold the big Citizens' Military Training camp in August. Many preliminaries in passing on the qualifications of candidates make it necessary to set May 31 as the time limit within which applications may be made.

All expenses of those accepted for the camp, which will continue throughout August, will be borne by the government, including transportation both ways, uniform and other equipment and board. Candidates for the three courses of instruction must be between 17 and 27 years of age and possess required qualifications as to character, education and physique. The normal, healthy young man can easily meet these qualifications and necessary blanks and detailed information will be promptly furnished upon application by mail or in person to Headquarters 64th Cavalry Division and Organized Reserves of Kentucky, Room 515 Post-office Building, Louisville, Ky.

All the latest ideas in military science will be communicated to those who attend the Camp Knox school. The Red, White and Blue courses cover the requirements of the various classes of candidates. The camp will not only be interesting and valuable from an educational standpoint but an elaborate schedule of sports and entertainment promises to make the training period highly enjoyable.

The United States army officers who are completing the arrangements for the Camp Knox school (which is for men in the Fifth Corps Area, composed of Kentucky, Indiana, Ohio and West Virginia) stress the urgency of prompt application for admission. Only 3,000 young men from the four states named will be accepted, and Governor Morrow, the Y. M. C. A. and various civic organizations are uniting in efforts to see that the Kentucky quota is up to full strength.

Reserve Headquarters in Louisville will give prompt and courteous attention to all requests for information.

It is a highly unusual and particularly interesting act on the part of President Harding when he communicates by telegram with the governors of states urging them to co-operate in creating interest in the idea of the Citizens' Military Training Camps. Efforts since the world war to formulate a settled military policy for the United States have been hampered by many influences, but it now appears that all concerned are in agreement that the best to be hoped for in the way of "preparedness" is a body of several million young men trained in the fundamentals of military service. Since this training is to be given at the camps held each year in the various corps areas, it becomes obvious that the training camp idea is the nucleus about which the army of the future is to be built.

Under the new law providing for the United States military establishment we have the regular army, the national guard and the organized reserves. The reserve of man power must come from the citizens' military training camps, and hence the vital importance of the course of instruction at Camp Knox and other training centers in August. It is of capital importance, therefore, that our young men be urged to attend these camps, where, in effect, they will have a month's vacation at the government's expense. The qualifications as to character, education and physique make it certain that only the flower of youth of the land is eligible, and we hope to see Kentucky well represented among the 3,000 students at Camp Knox next August.

It is required that applications be in by May 31.

NARROW ESCAPE

Mrs. Sidney Ensor, while cooking on a gas stove Wednesday evening, narrowly escaped serious injury. One jet was left open while another was burning, when gas from several feet around ignited, burning Mrs. Ensor's face, singeing her eyebrows and hair and but for the protection of her glasses would have sustained serious injury.

VIRGINIA BANKS AID FARMERS TO PURCHASE PURE-BRED Sires

The banks of Charlottesville, Va., are cooperating with the farmers of the surrounding country in obtaining purebred sires. According to reports received by the United States Department of Agriculture, if a farmer will sell his grade or scrub sires and purchase pure-bred animals, the banks supply the necessary funds to cover the purchase of the pure-bred sire over the amount received for the inferior animal. The loan is made on the basis of a year's time.

Sentiment among bankers regarding the use of pure-bred live stock in practical farming operations appear to be growing more favorable, and the attitude of the Charlottesville banks is evidence of this point. Pure bred sires of good quality, as shown by information obtained by the Bureau of Animal Industry, increase the earning power of the herds and flocks in which they are used.

Look for the Lancaster "Tread-Mark"

ALL roads know Lancaster Tires. Every auto trail, in every section of the country, daily bears its share of motor vehicles equipped with these standard, extra-service tires.

And everywhere, Lancaster Tires have proven that they actually do last longer.

You can so thoroughly depend upon every single Lancaster doing its full duty, that it hardly pays to take chances with tires that may deliver satisfactory mileage.

RAPID EXPANSION MADE IN STRAWBERRY GROWING

During the past two or three years strawberry growing in western Kentucky and border counties of Tennessee and experienced an unprecedented growth, according to Morgan O. Hughes, of the Kentucky Agricultural Experiment Station and one of the well-known authorities in Kentucky on the crop. Sixteen associations formed in that territory for marketing the berries represent an estimated total of 8,000 acres, he declared.

"Kentucky growers are finding that good care of their beds will increase the yields at least 50 per cent," Mr. Hughes said in discussing practices followed in growing the crop. "Immediately after the end of the bearing season, which is usually about June 10 to 15 in Kentucky, the vines are mowed off and the beds raked clean after which the rows are barred out on each side with a disc cultivator or one-horse plow until they are about eight inches wide. After this has been done, some growers find it a good plan to go across the rows with a smoothing harrow that has the teeth set straight. This not only kills many weeds, but also pulls out some of the surplus plants usually found in a well matted row.

"The ridges then rolled down and the middles split out with a double shovel or bull tongue plow and the beds given frequent cultivation. As the vines throw out new plants, the rows are allowed to spread out until about 12 inches wide and are given two or three hoeings at intervals to keep them free of weeds. Old beds usually are cultivated until the ground becomes too wet or frozen in order that they can be left entirely clean in the fall.

"After new beds have been set in

the spring and up until the first of July, they are cultivated both ways with a tool similar to a 14-tooth garden harrow. This is discontinued when the runners are about one foot long, these being allowed to form a matted row that should spread out until about 12 inches wide. Hand hoeing is necessary after this to keep down weeds. Missing places in the row are filled by careful training of the runners."

Hail Destroys Millions of Dollars of Tobacco

The loss of tobacco by hail in this and other tobacco states within the last five years has run up into millions of dollars with only a small part covered by insurance.

Yet, the amount of insurance received by growers who had the foresight thus to protect themselves against such loss, was enormous and should make every grower not only feel the but to do that very thing and do it at once.

What Dr. Halley Says: Dr. Samuel H. Halley, of the Burley Tobacco Growers' Company on lowering its rates on tobacco hail insurance, said: "Within the period that I have had hail insurance I have had four severe losses. The most I received exceeded considerably what I paid in, to say the least, of my peace of mind that I was fully protected in case of a storm. I have always advocated carrying hail insurance on tobacco without which every grower takes a chance to lose all. With it he can, in safety, go into the business of producing a crop which requires, as does tobacco, so much labor, time and money.

Now that the Burley Growers have gone into an organization to handle their business in a modern economic business-like way, I see no reason why all growers can not take out insurance on the reduced rates the companies are now quoting. Look up the insurance agent in your section now, and let him protect you against the loss of your tobacco. Policies effective July 10th, noon.

POULTRY YARD LOCUST STREET

NEW PUBLICATION SOUNDS PROMISE FOR ORCHARDING

With decided reduction from 1910 to 1920 in the number of fruit trees in Kentucky, as well as the United States, better care of bearing orchards should return their owners increased profits while the planting of new orchards promises to be a sound investment, according to a new circular which has just come off the press at the College of Agriculture and which is being distributed free to interested farmers.

"This reduction has decreased the quantity of fruit produced and has resulted in relatively high prices," A. J. Olney and H. R. Niswonger, joint authors of the publication, say. "Extensive plantings probably will be made when the country is restored

to normal conditions, but several years will be required to bring the number of bearing trees back to that of 1910. It seems opportune, therefore, to stress the importance of fostering the orchards now of bearing age."

At best, an over-production of fruit could not take place until new plantings are made and brought into bearing, the authors point out. Possibilities for such a condition are made even more remote by the death each year of a certain number of young trees, limited acres to which commercial fruit production are confined, increasing demands for fruit and the absence of sudden fluctuations in the industry, they continue.

Among the subjects discussed in the circular, which is well illustrated and detailed, are preparation for an orchard, the sit and soil, nursery stock, planting, use of dynamite and fillers, selection of varieties for home and commercial orchard, soil management, care of young orchards, clean culture with cover crops, intercropping, care of bearing trees, the sod mulch system, use of clovers, fertilizers for different kinds of orchards, pests, rodents, spraying, fungicides, insecticides and grafting.

A copy of the circular, which is No. 118, may be obtained free by writing the Experiment Station, Lexington.

We doubt, however, if the illicit still occasions as much trouble in this old world as the tongues that are not still.

SEASONAL GARDEN TIPS

Insects destructive to gardens may be divided into two groups—those that destroy the plants by biting and chewing and those that suck the sap or juices of the plants. Effective control of any insect depends upon determining to which group it belongs and then applying the proper poison. Biting and chewing insects are controlled by use of stomach poisons such as arsenate of lead and Paris green. Sucking insects are controlled by tobacco poisons, kerosene emulsion and Bordeaux mixture.

Late carrots are planted about June 1, the seed being sown thinly in a very shallow furrow. A few radish seeds sown along with the carrots help to mark the row. Ox Heart and Chateau are good late varieties that mature in from 75 to 110 days.

Spraying tomato plants with Bordeaux mixture about June 1 helps to control leaf spot and early blight. If the leaves become spotted and yellow, these spraying should be repeated at intervals of about ten days to two weeks.

Plant lice may cause serious damage on early peas and beans unless the plants are watched closely for the presence of these insects on the underside of the leaves. They are controlled by spraying with arsenate of lead.

Painting all sash that has been used to cover hot beds and cold frames and storing it away in a sheltered place before June 1 helps to prolong its usefulness, according to gardeners at the College of Agriculture. Exposure to the hot summer sun causes considerable damage to these.

FOR WOMEN

Special Sale of Holeproof Hose. This week \$2.50 qualities cut to \$1.75—THE WALSH CO.

You think you are smart: But do you know what young general won the battle of Marengo from Napoleon? We don't.

We get our artistic temperament from grand opera and our artistic temperature from the weather bureau.

Buy Ice Books and Save Money

Small consumers will save \$3.20 per ton, while the larger consumers will save \$1.30 per ton.

PROPOSED COUPON PRICES

Size Block	Series	No. Coupons	Size Coupons	Chg. Price Per Book	Cash Price Per Book	Rate
300 lb.	A	24	12 lb.	\$ 1.90	\$ 1.80	60c

Crystal Ice Co.

Furnishes Ice made from earth-filtered, distilled water. The word crystal describes the ice frozen from water so clear and pure that with the naked eye you can see through three cakes deep. Ice frozen this way will keep at least twice as long as the white ice; is also more than twice as cold and, of course, will keep articles that much longer and better than it is possible for the white ice to preserve. This is a fact by which our people can see that they get the best and purest ice for less money than they pay for what is termed white ice.

We have books on sale now and our delivery is quick.

GOLDSMITH WEAKENS, THROUGH HARDING, SPENCER STAND PAT

It is reported at this writing that the nomination of the notorious Nat Goldstein of St. Louis to be collector of internal revenue in that city has been withdrawn at the request of Goldstein himself.

Goldstein's nomination was sponsored by Senator Spencer (Rep., Mo.), who vouched for Goldstein as a man of "absolute integrity." This is the same Senator Spencer who vouched for Senator Newberry and had charge of Newberry's defense in the Senate.

When Goldstein admitted that he had taken \$2,500 of the Lowden campaign money when a candidate for delegate to the Republican National Convention of 1920, Governor Lowden declined to accept his vote. Governor Lowden now states that Goldstein's explanation in his testimony before the Senate Investigating Committee was absolutely false, and says that he was afterwards informed that Goldstein's testimony was given at the suggestion of Senator Spencer, member of the Senate Investigating Committee. Concerning Goldstein's nomination to be revenue collector, Governor Lowden says:

"If he was unfit to sit as a delegate in convention, it is hard to see how he can be regarded as a fit candidate for revenue collector."

Concerning this nomination, the White House said informally that it neither boasts of nor apologizes for its nominations.

Of those directly concerned with his appointment as collector, Goldstein seems to be the only man who realizes the enormity of the offense against decency by asking to have his name withdrawn.

FLAT FOR RENT—With all conveniences. Phone 237.—Mrs. J. F. Heinrich. (61-4f)

Jack Fry got an awful shock the other night when three birds came out of his cuckoo clock instead of one.

FOR WOMEN

Holeproof Clocked Hose, \$3.00 qualities this week cut to \$2.35.—THE WALSH CO.

How the present styles of apparel will be regarded a generation hence may be realized by looking at the old family album.

HOMEY PHILOSOPHY FOR 1922

It's raining! Lord, isn't that so grand! The grass will be greener, the cows'll get refreshing food; they'll give more nourishing milk and the little kiddies of the slum will be healthier; the crops'll grow, and everyone'll be more prosperous.

The sun is shining! Lord, isn't that grand! The world looks glorious. What about that picnic in the woods—a cooling swim, a day's fishin', a spin in the flivver, or a ramble through the country lanes. Health in the air, joy in every soul, inspiration to do the work of the day in a cheerful spirit.

It's cloudy! Gee, Lord, isn't that grand! How delightfully cool. An' the dust gone. A sprinkle of rain and then the sun will come out. Oh, boy, there's somethin' in a cloudy day.

It's windy! Lord, isn't that grand!

Listen to her whistle! Watch the germs fly. Good old wind—health—vigor—power—inspiration—pep.

It's daybreak. Lord, isn't that grand! See that glorious sunrise—good old sun—never fails—come on, boys, get busy.

It's moonlight! Lord, isn't that so grand! Tranquil, soft, blossom-laden air—that little sweetheart waitin' by the hedgerow, and—oh, gee, isn't life worth livin'?

The half that has not been told is usually the better half.

as a candidate for Congress, subject to the action of the Democratic party in the primary election to be held on Saturday, August 5, 1922.

HIGH TAXES

The universal cry is against high taxes. The cry should not be against high taxes, but against the corrupt use of taxes. The question of high or low taxes is to some extent governed by the valuation put upon property from the public treasury. Crush the socialistic, paternal spirit growing up in this country, whether in the form of the pork barrel or government ownership of public utilities. All such unconstitutional doctrines and practices are increasing the taxes to the breaking point.

The continued excessive tax burdens can be traced to certain abuses:

First—Extravagant, complicated governments. The office seekers, office holders and tax eaters have multiplied government machinery to perpetuate themselves in office. If you would reduce the machinery and throw out of office the inefficient, rat-hole hunting office parasites you would reduce the cost of municipal, county, state and national governments 30 per cent. Today, you have about sixty cents of every dollar of tax money invested in government, and the other forty cents is represented by waste, fraud, inefficiency and graft.

The bureaucracy of this country is a curse to good government and a criminal expense upon the tax-ridden public. Simplify governmental machinery and put competent, trained, patriotic men in office and taxes will be reduced 30 per cent within a short time.

Second—Destroy the spoils system. Elect or appoint men to office solely on the ground of merit. Then you will get an honest day's work for the true love of country and a just consideration of the trust imposed.

Third—Teach the people they must support the government and not expect support.

BETTER TIMES AHEAD

The great news of a general cut in freight rates comes in tandem with the equally great news of the suspension of the huge increases on livestock rates in the south. Every cell in the fabric of the economic structure of this nation is affected by these tidings from the office of the Interstate Commerce Commission in Washington. More than any other developments of government they mean a stabilizing of price levels and a restoration of those possible conditions of living which will make of wages more than a draft to pay bare expenses. The public will believe that the reductions and the suspensions are well-founded. Whether the railroads will agree or not remains to be seen. The executives refused to make the reductions voluntarily at the White House recently. If railroad debility should follow them, they will involve more harm than good. But the prospect is to the contrary.—Louisville Times.

The reduction in rates will mean a saving of thousands of dollars to the people of this section and should go a long way toward hastening prosperity to this community.

WORTH THE COST

From the Department of Agriculture, W. C. Hanna, commissioner, is causing to be sent out to various individuals over the state a four-page bulletin under the caption of "Kentucky State Marketing Exchange Bulletin," which embraces every item of agriculture the farmer has either to buy or to sell. To keep the people posted as to wants to buy and wants to sell is an idea worth while and to those interested, to our mind, is worth many times the cost, but the question of cost of issue and distribution is not economically worked out. All men should be advised on this subject and to illustrate, it would require 3,000 bulletins to cover the county of Montgomery and the cost by mail to each family would be more than \$200 per issue, when if the same copy was given to the Advocate, the paper of the largest and closest county circulation in the county, the cost would be much less per issue. This method of advertising is worth while, of inestimable benefit and should be wisely worked out.

WEATHER BUREAU TO FURNISH LECTURE COURSE TO AIRMEN

The Weather Bureau of the United States Department of Agriculture, upon request by the United States Air Service, has begun a course of lectures on meteorology to pilots at certain aviation fields in California. Such a course, it was felt, should be adaptable to the region in which pilots do most of their flying. The lectures would be necessarily few in number, brief, well illustrated with lantern slides, and mainly devoted to those phases of general meteorology which are of most concern in actual flying.

An outline meeting with these requirements is being followed, supplemented with suitable lantern slides. It covers, in ten lectures, general meteorology, instruments and methods of observation at the

surface and in the upper levels, the physical properties of the atmosphere, including its constituents, its vertical structure, the decrease of pressure with altitude, the change of temperature with altitude, and the change of humidity with altitude. The direction and velocity of winds is to be studied, thunderstorms, fogs and clouds, and features of meteorology especially relating to aviation, stressing the importance of knowing winds and weather along a flying route before a flight is begun. The course of lectures will end with a discussion of weather conditions and climate in California, in the region in which the flying is to be done, and their relation to aviation.

You think you are smart: But do you know when the kittens learn to act kittenish?

END OF DRUGS IN SIGHT

Dr. Copeland, health officer of the big city of New York, says when the Miller bill regulating the importation and exportation of habit-forming drugs gets into operation he will guarantee to cure every drug addict in the city of New York—and there are thousands on thousands of them—by a painless method within six months. Surely nothing is more important, nothing more clearly points to the necessity of the government commanding space in the newspapers to educate the people, especially in the rural districts, in matters affecting the public health. The anti-prohibitionists have held as their trump card of opposition to enforcement of the Volstead act the fact that drug addicts have increased as drunkards have decreased. With the drug addict cure and habit-forming drugs under government control, prohibition will have a fair chance to demonstrate its beneficial effect on the human race, at least as applied to America. Dr. Copeland is a practical man in every sense of the word, and there is no greater advocate than he of educational work by the government, municipal, state and nation alike. Not more than a week ago Dr. Copeland made the flat assertion that measles could be absolutely wiped out of America forever in forty-eight hours if all cases were properly isolated. The only reason this disease has not already been killed forever is that the people do not understand how easy it is to master. It is a fair assertion that if the government would educate the people in matters medical that the death rate in the United States could be lowered at least ten per cent. This should arrest the attention of our congressmen, even from the standpoint of economic saving, if not from its humanitarian angle, and it may when a number of our national legislators take a sufficient time off from rolling the pork barrel to think of the people they are supposed to serve. We will get some action.

AN OPEN LETTER

We wish to say to the public that the sudden closing of the tent meeting may cause some comment, but we wish to say that the Church of the Nazarene does not encourage or use such methods in preaching as have been used in this meeting in the tent just closed except that by Rev. and Mrs. Hanks, whose methods of preaching are strictly Nazarene. No good can be done, no ground can be gained by driving or clubbing or demeaning the people. Such statements as "skunk-stinking," "woman - chasing," "pusillanimous" and "hellbound" are unbecoming a minister of the gospel and should never escape his lips in any place. Church of the Nazarene does not stand for such things and we want the good citizens of Mt. Sterling to know that it does not. We will put up another tent on the same lot and continue our campaign for the salvation of souls.—Rev. F. E. Hill, Pastor.

BOSTON GIVES NEW SENSATION

Versed in forest lore and determined to prove that the primitive species has nothing on the modern flapper and her male companion, we hear that a young Boston couple propose to make a dash into the woods of Maine without food or clothing and there dwell for a period of six weeks, wresting their sustenance from Mother Earth. Boston has given to the world many a thrill from the day of the famous tea party to this year of our Lord, but this latest demonstration of the unique caps the climax. Still, the experiment may not be without its value. If the young couple—the young wife is twenty-three and the husband is twenty-seven—manage to get along in their battle with nature, it may bring them a greater spirit of contentment, in that it may teach them how little they really used in this world, and make them more pliable to the exactions of the shoe trust, which has pinched the toes of New England and the pocketbooks of the whole nation for a good many years. The spot chosen for the experiment is one uninhabited by man, though reports have it as infested with wild beasts, and of course by the terrifying mosquito, which may prove the greatest obstacle to be overcome.

THE SICK

Mrs. Esther Curtis is quite ill from an attack of appendicitis.

Paul Bohlke, of the Electric Shop, is confined to his room on account of illness.

Joe Brown is at a Cincinnati hospital to have his tonsils removed by the bloodless operation.

Mrs. Rose Wells, who came here recently from Carlisle and who occupies an apartment on Bank street, is seriously ill from a complication of diseases. Her death is momentarily expected.

HOMEY PHILOSOPHY FOR 1922

Since the truth is best, we had rather inquire than argue. There is nothing gained in arguing to prove a point after the manner of the district attorneys. Argue to ascertain the truth. When we present our views it should be to draw the other fellow's fire and from the outcome to reach the conclusion of common sense. We gain more when we lose an argument than when we win one, because when we lose we learn something, while when we win we only add to our vanity, which is always more than sufficient for our own good. Entering into an argument with out wits is like going to the grain field with a scythe—a waste of time if we don't gather the grain we seek and need.

EVERYBODY DAMNING

THE TARIFF

The McCumber Tariff bill, which is the Fordney bill with 2,057 amendments, drags its weary way in the Senate, daily arousing new opposition and antagonism from men of all shades of political opinion; from the Republican, Independent and Democratic press, from business men, including manufacturers and importers; from farmers, and almost every element possessing intelligence and with any understanding of economic principles.

The constitutionality of the provision delegating authority to the Executive to fix rates has been attacked by such great constitutional lawyers as Senator Walsh (Dem., Mont.) and Senator Pomerene (Dem., Ohio), and by one of the foremost authorities on the tariff, Senator Underwood (Dem., Ala.) but the Senate has already shown its contempt for the

"Dixie Dealer"

Constitution by confirming Senator Smoot and Representative Burton as members of the War Debt Funding Commission.

There is scarcely a schedule in the bill that is not subject to attack in the nature of an exposure of special privileges granted to the big interests. The Packers' Trust is well provided for. The Payne-Aldrich bill put one and a half cents a pound on all fish meat. In the pending bill it is three and a half cents a pound on beef and veal, with lamb at five cents a pound. Swine now on the free list, is given the rate of one-half cent a pound and fresh pork also is on the free list at three-quarter cent a pound. Sheep are taxed at two dollars a head. But there has been a change in the rate on cattle on the hoof with the packers import from South America, and frozen meats are barred from competition.

These are typical of the protection afforded the big interests.

AMPLE WATER SUPPLY SEN IN WESTERN SNOW SURVEY

Sufficient water for irrigation and hydroelectric purposes seems assured this season in the Rocky Mountain and Pacific Coast States, according to preliminary reports of snow-surveying parties now in the field under the direction of the Weather Bureau of the United States Department of Agriculture. The work of measuring the depth of the snow in various places and computing the snow density in order to calculate the amount of real water that will be available is at present confined to

Utah and Nevada.

Through other indications, the Weather Bureau is satisfied that there will be plenty of water in Arizona this year, so the survey does not include that State. Conditions at present in Nevada and Utah are reported to be about average. In Oregon, Washington, and Wyoming somewhat above the average amount of water may be expected, while in Idaho and Montana the heavy snow fall points to a greater supply of water than usual.

This service of the Weather Bureau is of special value to farmers in irrigated districts, who will not plant heavily unless they know that sufficient water will be available. Hydroelectric companies by means of this information can gauge the power and service for which they should contract.

Funny how a wife can't realize a husband's worth the way she can realize his worthiness.

Jones, Mrs. Clyde Darsie, Mrs. Alice Perry, Mrs. Jannie Thomson, Mrs. T. B. Hill, Judge and Mrs. H. C. McKee, Mrs. H. M. Bishop, Mrs. Steve Adamson, Mrs. Hattie Howell, Mrs. J. W. Prewitt, Mrs. John Robinson, Mrs. Mary Boyd Derrickson, Mr. and

Money Never Saves Itself

IF YOU WANT to have money you must do the saving yourself. Money doesn't care who gets it or keeps it. The best way to save money is to have a bank account. Deposit your savings and forget to draw them out. They grow more rapidly than you would think. Soon you will be earning money with money instead of by your daily toil. That is the road successful men travel. What is your living expense bill per month? Open a checking account and pay ALL of your bills by checks. Then you will always know just where you stand. It is the SAFE way, and decidedly convenient and satisfactory.

TRADERS NATIONAL BANK

"The Bank With a Welcome"

Mrs. J. C. McNeal, Lewis Killpatrick, Mr. and Mrs. W. T. Tyler, Miss Dorothy Tyler, Mrs. Emilee Reed and Mrs. Tipton Wilson.

Mrs. Hunt Entertains

Mrs. William T. Hunt charmingly entertained a number of friends at bridge Wednesday and another group this afternoon at her home on West Main street. The decorations were of garden flowers lavishly used about the rooms, and the color scheme of pink and white was most attractively carried out in all features of the party. After the game Mrs. Hunt invited her guests into the dining room, where a most delightful lunch was served from the long tables. Lovely hand-painted cards showed them to their places and tiny pink baskets of candy were given as favors. Mrs. Hunt was assisted by her mother, Mrs. Effie Tharp, Mrs. R. Stewart McCormick, Mrs. Paul Strother, Mrs. William B. Tipton, Mrs. Tipton Wilson, Mrs. Halley Gillaspie and Miss Pearl Lane. Her guests on Wednesday were: Mrs. Tipton Wilson, Mrs. Garrett Marshall, Mrs. Thomas Coleman, Mrs. A. S. Johnson, Mrs. J. W. Hedden, Jr., Mrs. Paul K. McKenna, Mrs. S. D. Hall, Mrs. J. Miller Hoffman, Mrs. Clayton Howell, Mrs. Howard Turner, Mrs. Ratliff Lane, Mrs. Webster P. Huntington, Mrs. George R. Snyder, Mrs. Charles W. Kirkpatrick, Mrs. Paul Tutt, Mrs. Shields D. Gay, Miss Ruth Wyatt, Miss Mary Smith, Mrs. Judson Anderson, Miss Laura Graves, Miss Minnie Graves, Mrs. Jack C. Graves, Mrs. Mary Pratt McKee, Miss Anise Hunt, Mrs. S. E. Spratt, Mrs. Marvin Gay, Mrs. C. W. Compton and Mrs. A. L. Tipton, and her Thursday party included: Miss Emily Hazelrigg, Mrs. Harry D. Hunt, Mrs. C. P. Perkins, Mrs. Hattie William, Miss Nell Pangburn, Miss Alma Cox, Mrs. William Enoch, Mrs. David Chenault, Miss Thelma Blount, Mrs. Ralph Greene, Mrs. Will Nelson Hoffman, Mrs. Clifton McCormick, Mrs. Harry Crooks, Mrs. Dillard Douglas, Mrs. Riggs Sullivan, Mrs. Albert Botts, Miss Ida Belle Brother, Miss Elizabeth McCoun, Miss Mary Lawless Gatewood, Mrs. Frank Hill, Mrs. James Nesbitt, Mrs. Leo Hombs, Mrs. Irwin D. Wood and Miss Elizabeth Horton.

RELIGIOUS

Rev. R. M. Reynolds is holding a very successful meeting at Eminence.

Memorial services will be held at the Catholic cemetery next Sunday at 3 o'clock p. m. Sermon by the pastor.

Rev. J. S. Ragan is at home from Hot Springs, Ark., where he attended the general conference of Southern Methodists. Rev. Ragan will fill his pulpit at Camargo next Sunday.

Rev. Olus Hamilton and wife will return from Jacksonville, Fla., this week and he will occupy the pulpit of the Baptist church Sunday morning and evening, at which time he desires to meet his entire congregation. He has a message for them.

When an husband doesn't show the proper regard for his second wife, a lot of women feel like applauding.

If women were allowed to dance only with their husbands, there'd be very little dancing.

We know a man who remembers the time when there used to be a foot scraper on every front porch in town. The Advocate, twice-a-week.

SOUTHERN POTATO GROWERS USING MORE CERTIFIED SEED

In some southern states where potatoes are an important crop, growers are taking an increased interest in certified seed, but according to state officials and representatives of the United States Department of Agriculture, who are co-operating with them, special legislation is necessary to prevent local seedsmen from selling ordinary stock or even table stock as certified seed.

Many growers now recognize the value of superior seed and are willing to pay a premium for it, but they are discouraged by frauds perpetrated upon them by unscrupulous dealers. However, the farmers may protect themselves to a great extent if they will look for the certification tag which should be on every sack of certified seed potatoes. With this tag to start from it is possible to trace any lot of seed back to the grower or dealer who put it up.

Not only the growers, but many of the seed dealers have been impressed with the importance of getting in nothing but the best seed. This year 22 carloads of certified seed potatoes, all of the Triumph variety, were planted in Louisiana alone. Twelve carloads came from Wisconsin and 10 from Nebraska. It is claimed that by the use of this high-grade seed the yields in that state are being increased 40 bushels or more an acre over that of much of the seed formerly sold there.

FIGHTING CATTLE T. B. IS SUCCESSFUL BY AREA PLAN

In addition to systematic eradication of cattle tuberculosis by the accredited herd plan, interest in the "area plan," as it is called, has lately developed in many states, according to the report issued by the United States Department of Agriculture describing progress made during March. The eradication of tuberculosis under the comprehensive plan generally includes a county as a unit and all the cattle in the county are tested. The report shows that in states where the eradication work was concentrated in certain localities in an effort to wipe out the disease entirely, a great many more animals were tested than in states where the area plan is not yet followed to any appreciable extent.

NOTICE

All claims against the estate of Coleman B. Reed must be presented properly proven to E. F. Myers, administrator, or to my attorney, Henry Watson, and all claims due the estate must be paid to the administrator or to his attorney.—E. F. Myers, Administrator. (62-31)

We never knew why they called 'em "high explosives" until we went to pay our taxes the other day.

CARE OF EGGS ON FARM GIVEN NEW IMPORTANCE

In the future, good care of eggs on the farm before they are sent to the market will be a more important factor in determining the profits which Kentucky farmers obtain from their poultry flocks now that the state has an egg candling law, poultrymen at the Kentucky Agricultural Experiment Station are pointing out.

The portion of the law which interests farmers provides that between May 15 of each year and January 15 of the next, no person, firm or corporation engaged in buying or selling eggs shall do so without candling them and that no payment either in cash or merchandise shall be made for those unfit for food.

The five main causes for eggs becoming unfit for food are roosters in the flock, keeping the eggs in warm places, damp, dirty nests, leaving eggs in the nest too long and holding them at home too long, according to J. H. Martin, in charge of the station poultry work.

"Losses in eggs unfit for food may be prevented if all roosters are confined, sold or killed, the eggs kept in a cool place, one good nest provided for every five hens, the eggs gathered twice daily and marketed when they are fresh, he said.

"During the summer, broken, shrunken and badly flavored eggs may be prevented by gathering them twice daily," he continued. "Deterioration is prevented if the eggs are kept in a coop, well ventilated room. If the eggs are kept in a cave, care should be taken not to place them near onions or any other objects that might cause the eggs to absorb odors. It is best to place them on tables or boxes to allow free circulation of air about them. Eggs will reach market in better condition if they are sent frequently instead of being held for a full case to accumulate."

FOR WOMEN

Special Sale of Holeproof Hose. This week \$2.50 qualities cut to \$1.75.—THE WALSH CO.

See The Advocate for printing.

GIPSY MOTH ESTABLISHED IN CENTRAL CONNECTICUT

Winter and spring scouting by the Bureau of Entomology of the United States Department of Agriculture and State entomological forces shows that the gipsy moth is established over the entire central part of Connecticut. The new territory is as large as all the known infested area in the State up to this time. The area affected is that through which the main railroad lines run from New England into New York City, and the spread of the pest toward the great port is closely watched. It has now reached the New York State line in northwestern Connecticut.

Extra quality women's Holeproof Hose, \$1.00 qualities cut this week to 75c.—THE WALSH CO.

20,994 MILES AND TREAD ONLY 1/3 WORN

Exact
Reproductions
from Photographs

MOST MILES per DOLLAR

Firestone CORD TIRES

The tire section above at the left shows the condition of a Firestone 33x4 1/2 Cord Tire after 20,994 miles on a Yellow Cab in Chicago.

The section at the right was cut from a new Cord of the same size. Careful measurements show that only 1/3 of the tread of the tire on the Yellow Cab has been worn away after this long, gruelling test. The carcass is intact after more than 11,000,000 revolutions.

Firestone Cords have averaged over 10,000 miles on Chicago Yellow Cabs (1,200 cabs all Firestone equipped). In thousands of instances, they have given from 15,000 to 30,000 miles.

Look at the tread—scientifically angled against skid, massive

and heavy in the center where the wear comes, tapered at the edges to make steering easy and to protect the carcass against destructive hinging action of high tread edges. The carcass is air bag expanded to insure uniform tension and paralleling of every individual cord. It is double "gum dipped" to make sure that each cord is thoroughly insulated with rubber.

This is the reason why Firestone Cords unfailingly deliver extraordinary mileage. It explains the unanimous demand of thoughtful tire buyers for these values. The local Firestone dealer will continue to provide the personal service that makes Firestone tire comfort and economy complete.

THE NURSERY

Every home, if possible, should contain one room for the child's special use. Not that he must always be confined to the nursery, or denied the privileges of the entire home, but that he may have the privacy of a room in which to commence his education through play uninterrupted by many of the activities of the home.

The child should be required to spend a part of the time in the nursery. This he will gladly do without coercion, provided he has a pleasant room, suitable toys and protection from intrusion as he attempts to develop his mind through play.

There should be a sunny exposure, good ventilation and low windows protected against accident. The child enjoys pictures of the outside world as seen from the windows. The blue sky, the wind-blown clouds, raindrops, windstorms, sunbeams, flowers, trees and birds afford him a continuous source of pleasure. In fact, such pictures acted upon his keen imagination frequently record more vital and lasting impressions upon the child's mind than those hung upon the walls.

The walls and woodwork of the nursery should be finished in soft harmonious colors, while the utmost cleanliness and neatness are necessary.

The nursery walls may be relieved by pictures of interest to the child. There is a whole selection of suitable pictures from which to choose. But there should always be a picture of "Mother and Child," pictures of the child's near-at-hand environment, human life, plant life, animal life, natural phenomena, also pictures illustrating nursery rhymes. These should not be hung indiscriminately upon the walls, or they may destroy the beauty of the room. Many pictures may be kept in portfolios or presented through picture books.

There should be growing plants in the window boxes where bulbs and seeds are frequently planted which the child may care for. His interest in them is natural and ought to be

cherished.

The furniture should be simple, with the chairs and tables of suitable height placed correctly as regards the light. Cushions are useful upon the floor.

There should be a cabinet with low shelves and individual places for all toys and play materials. Every nursery should contain a sand table. The child should play as frequently as possible in the open air, and be kept away from the distractions of the street.

The nursery should be an attractive room, for the child learns more from incidental impressions than from direct teaching. In fact, the child's whole environment should aid the natural development of his mind, protecting him against undesirable impressions, guiding him happily towards the goal of education—good habits.—Ellen Creelman.

TRADE JOURNALS CON-

DEMN TARIFF BILL

Here is a typical opinion of the trade journals on the McCumber tariff bill from the Shoe and Leather Reporter:

"The tariff bill, as framed in the House and mutilated by the Senate Finance Committee, should be laid on the table and forgotten. It is about the worst piece of revenue legislation in the history of the Government. It is full of blunders, contradictions and

inequalities, and for every clause acceptable to an industry something follows of an objectionable character.

"It should be plain as a noonday sun that it is not possible for Congress to frame an adequate bill at this time. Industrial and commercial conditions in all the countries of the world are in a state of flux, and whatever appears to be a good set of tariff clauses today might be completely out of alignment and inadequate tomorrow.

Perhaps it will be humanly possible to revise the schedules intelligently a few years hence, when the war-stricken world has settled down to business again."

The clutch is an important part of the machinery and also an important part of the joy ride.

McCUMBER TARIFF BILL IS GRAFT FOUNDATION

It has been more than five years since a passenger riding in a coach of the Chesapeake and Ohio Railway has been fatally injured, and during that period more than 48,000,000 passengers have been handled.

This record, splendid as it is, we do not claim is exceptional. It merely goes to show, as do other figures, that the American railways as a whole are making an excellent record in the reduction of fatalities. The reason for this is to be found in the fact that railway men have been trained to give safety precedence over all other things. To them the most familiar rule in the standard book of railway rules reads: "In case of doubt or uncertainty, the safe course must be taken."

While railway traffic has greatly increased in recent years, fatalities on the railroads have been decreasing. 1920 was a record year for traffic yet the number of fatalities was the smallest in 22 years. 1921 in turn broke this record by a reduction of 14 per cent in the number of fatalities, according to the report of the Interstate Commerce Commission.

The unit by which freight traffic is measured is the ton mile and unit of passenger traffic is the passenger mile. Statistics show that there has been a steady increase in both for the past ten years, the increase in ton miles in 1920 over 1911 being 64 per cent, and the increase in passenger miles being 42 per cent. Yet despite this vast increase in business, which required many more employees to handle the great tonnage and which subjected so many more passengers to danger, the total fatalities decreased 33 per cent in 1920 from 1911.

In 1920 the railroads of the United States carried 16,239,774 passengers to each passenger fatally injured in a train accident. Trespassing and carelessness contribute heavily to the fatalities on the railroads. In 1920 trespassers fatally injured numbered 1273. Together these accounted for nearly one-half of all the fatalities on the railroads during the year.

Not many would believe that there are nearly as many persons accidentally drowned in a year as are fatally injured on railways. The rate of deaths per hundred thousand population in the United States in 1920 from some of the commoner causes

of fatalities was as follows: Falls 12.3; Automobile, 10.8; Burns, (not conflagrations), 7.9; Railroads, 6.6; Drownings, 5.9.

The Chesapeake and Ohio Railway has handled its share of increased business and at the same time has been able to show a substantial lessening of fatalities on its lines. In 1920 for instance, the ton miles showed an increase of 56 per cent, over 1914; the passenger miles showed an increase of 36 per cent, while the fatalities showed a decrease of 42 per cent.

We believe that the public will agree with us that the handling of a heavier business with a smaller number of fatalities is a barometer of railway efficiency. The Chesapeake and Ohio Railway pledges renewed effort toward rendering its patrons a transportation service of safety and satisfaction and asks the cooperation of the public.

W. J. HARAHAH, Pres.

DON'T DROP LIGHTED CIGARS ON WOODEN-FLOOR BRIDGES

Don't throw away your cigar or cigarette when crossing a bridge with a wooden floor, advises the Bureau of Public Roads of the United States Department of Agriculture. It may start a fire that will destroy the bridge.

Many such fires are started. Most of them are put out with small damage, but occasionally a large structure is destroyed. It seems strange that a steel bridge should be destroyed by fire, but heat from a burning floor may cause the destruction of the whole bridge by softening; the breaking of one weakened member will cause the whole span to drop into the river. On some large bridges a watchman is kept to guard against this danger, and in a dry season fires have been known to occur almost daily.

A committee composed of representatives of the bureau and representatives of the National Board of Fire Underwriters, the lumber and creosote industry, and the Engineering News-Record, a prominent engineering magazine, is now investigating the subject and considering the best means of protection.

What has become of the old-fashioned brick covered carpet that used to hold the front door open?

FARM AND HOME NEWS FROM OVER KENTUCKY

Members of the farmers' organization in Crittenden county are planning to pool their 1922 crop of wool, according to County Agent Spencer. More than 5,000 pounds will be centralized at some point in the county about June 1.

Acid phosphate this spring has taken an important place in improving McLean county soils, County Agent Robert H. Ford says. More than thirty cars of the fertilizer have been used.

Taylor county farmers are showing a lively interest in soybeans, County Agent J. L. Miller says. In a recent co-operative order for soybean and cowpea seed, which was handled by a Taylor county merchant, the total order for soybean seed was five times as large as that for cowpeas.

Striking points in connection with sheep breeding were pointed out to more than 200 farmers who recently gathered on the farm of S. K. Warren, of Warren county, to study the methods which he uses, County Agent W. H. Rogers reports. Farmers of adjoining counties as well as those of Warren county displayed keen interest in the six pens of sheep which were displayed to show the methods used in breeding up a flock. Talks also were made by Mr. Warren and other prominent sheepmen and breeders.

Five demonstrations are under way on as many Calloway county farms to determine if spraying with oil is an effective means of killing wild onions, County Agent Gardner reports. In many sections of the state this weed is one of the most serious ones with which farmers have to contend.

TO THE PUBLIC

Field or wild daisies will not be allowed on the grounds of Machpelah cemetery.—By order of the Board. 63-2t. W. T. TYLER, President.

Something to worry about: Borneo is out midway by the equator.

CLEVELAND SIX SEDAN

\$1595
NOW

F. O. B. CLEVELAND

No Other Six Sedan Is Priced So Low

THIS new and supremely beautiful Cleveland Sedan is the lowest priced six cylinder sedan in America!

It is even lower in price than any four cylinder sedan of equal size and power, except one—and the Cleveland is a Six!

It is priced only \$400 more than the new Cleveland touring car. There are fifty-two leading makes of five-passenger cars (both fours and sixes) and compared with their touring car prices their sedans average \$754 more.

The Cleveland sedan of a year ago sold for \$2475. This new sedan is more stylish, more superbly luxurious, and has many mechanical improvements—yet it sells for \$880 less!

It Is a Genuine Sedan—Not a Compromise

This new Cleveland Sedan must in no way be confused with compromise or makeshift models.

It is a big, roomy sedan built by Fisher of finest material and construction throughout. In no way has quality been sacrificed to price.

A careful comparison will prove the enduring quality of its solid framework—its freedom from squeaks and rattles—its weather-proof steel paneling—its four wide doors and its rich exquisite upholstery.

Mounted upon the Cleveland Six dependable, powerful chassis and with its new style, its beauty and efficiency, it is easily—

CLEVELAND AUTOMOBILE COMPANY, CLEVELAND

LOOKOUT ASKED FOR NEW WEEVIL FOUND IN MISS.

A weevil has been found in Stone County, Mississippi, in considerable numbers, which is injurious to potato, tomato, and turnips. Southern entomologists are especially requested by the United States Department of Agriculture to keep a sharp lookout

for this species. It seems to be identical with *Desiantha nociva* Lea, known in Australia as the tomato weevil. It is about one-third of an inch long, dull gray in color, and bears on the wing covers a pale V-shaped mark. It has been known in Australia since 1908, and does much damage. The larvae feed upon the

plants at night, hiding underground during the day.

The State entomologist for Mississippi is trying to find out how far this weevil has spread, and the Bureau of Entomology is actively cooperating.

Wild oats must be gathered while the sun shines—wisdom can wait.

Let Us Help You Get the Last Dollar's Worth of Service From Your Tires

BEFORE

Do you usually discard your tires when the tread first wears thru, feeling that no more service may safely be expected?

Sometimes this is the only thing to do, but often it is surprising the results you can get by a retread.

Retreading didn't use to be satisfactory. Aside from its being done with tires that weren't worth it, the average retread used to look so ugly that you would hate to have it on the car.

But when your next tire wears thru, bring it in to us.

We will examine it carefully and if a retread won't pay, we'll tell you so, because we don't want you to pay for something that we know won't be satisfactory.

If it is worth retreading, we'll make a price for the work and the chances are we'll have a sample of some finished work so you can see how hard it is to tell our retread from a new tire. Then you be the judge.

Retreads, properly applied, save buying new tires and give some of the lowest cost mileage you can buy.

HOW BUSINESS EDUCATION PAYS

Miss Dorothy Peed Anxious to Become Self-Supporting—Attained a Business Education at the Fugazzi School, Lexington

HER SALARY IS NOW \$250 PER MONTH

Others With Flattering Prospects Are Placed With Good Salaries—Demands on the Fugazzi School for Competents Are Strenuous

MORE DEMANDS THAN THEY CAN SUPPLY NOW

Mr. Fred Bassett, who travels for Sistrunk and Company, of this city, advised Mr. Southern the past week that his niece, Miss Dorothy Peed, who is a graduate of the Fugazzi School, and who has accepted a position in Washington, D. C., has been promoted and is now receiving \$250 per month. Miss Peed was a fine student and this institution congratulates her upon her success. Mr. Bassett stated that he wanted to come up and visit this school and see how we manage to turn out such competent stenographers.

Miss Lucinda Patton was placed at the Board of Commerce the past week and I am advised from that office that her work is entirely satisfactory.

Mr. Edward Adams, of Lawrenceburg, Kentucky, who has just graduated from the Fugazzi School, was placed the past week with Munns Brothers as bookkeeper.

Miss Cora Rose, of Versailles, Kentucky, was placed the past week with Levy Brothers.

Miss Louise Faircloth was placed the past week at the Guaranty Bank and Trust company, making six Fugazzi students that are holding positions in this one bank.

Our special summer enrollment will be Monday, May 29, and Monday, June 5, but do not overlook the fact that you can enroll any day and take up this work as we make a specialty of individual instructions when necessary. The summer enrollment is coming in rapidly and we are very glad to have all those interested in this work to communicate with the school at the earliest date possible.

FUGAZZI SCHOOL OF BUSINESS, Lexington, Ky.

Mr. and Mrs. Matt Swope spent Sunday with Mr. and Mrs. Walter Bailey.

Miss Virginia Gilvin, of East Union, and Miss Jennie Leggett, of Bethel, are here to spend the week with their cousin, Miss Mary Lizzie Shrout.

Mr. and Mrs. Wallace Potts and little daughter, of Forest Grove, were here to spend the week-end with his parents, Mr. and Mrs. John Potts.

Mr. and Mrs. Ora Rice are the parents of a ten-pound son, born May 18. He has been named Ernest Ward.

Mr. and Mrs. Ernest Swope were guests Sunday of Mr. and Mrs. Elmer Turpin, at North Middletown.

Pelma Kerrick, of Sideview, was a guest of Ralph and Willie King Sunday.

Mrs. Sonnie Norris and children, of Grassy Lick, and Mr. and Mrs. Dudley Kline spent Sunday with Allen Kline and wife.

Mr. and Mrs. C. J. Gamboe and son, of Winchester, spent Sunday with their daughter, Mrs. Walker Potts, and family.

Ralph and Charles King were in Lexington Saturday.

Mr. and Mrs. B. Kerns and daughter, of Sideview, spent Sunday with George Kerns and wife.

Mrs. Ora Rice had as guest Monday the following: Mrs. Matt Swope, Mrs. Noah Gilvin, Mrs. Allen Kline, Mrs. Willie Brandenburg and Mrs. Lem Kincaid and children.

The farmers of this section are getting ready to transplant tobacco.

J. C. Turpin spent from Sunday until Monday in Richmond on business.

Mr. and Mrs. John West have been visiting their daughter, Mrs. Sterling Sanders.

Mrs. William Brandenburg has been on the sick list the past week.

Several from here attended the ball game at Wade's Mill Sunday.

Mr. and Mrs. Noah Gilvin spent Sunday afternoon with Mr. and Mrs. Ora Shrout.

Mr. and Mrs. Ora Shrout were in Mt. Sterling Tuesday.

WILL BREED OF SOFT HOGS RESULT FROM PEANUT FEED?

Is a soft, oily fat on a hog, produced by feeding peanuts, a characteristic that can be inherited and that will persist regardless of the nature of the ration fed the offspring? That is one of the interesting questions to be investigated by the United States Department of Agriculture at the experiment farm at Beltsville, Maryland. Both the bacon and lard types will be used, the former to be represented at the start by four Tamworth gilts and the latter by four Poland China gilts.

From weaning time until their first litters are weaned these eight gilts will be grown and fed on a peanut ration. From the time of weaning their pigs will be fed on some hardening ration, such as corn and tankage, and will be compared with a check lot of pigs whose dams were fed on hardening feeds instead of peanuts during their development and gestation periods. When the pigs have been grown out and finished, some of each lot will be slaughtered to determine whether there is any difference in the carcasses; that is, if the peanut ration fed to the mothers has made it more difficult to put a hard flesh on the offspring with corn.

See The Advocate for printing.

OWINGSVILLE

The graduating class of the Owingsville high school gave its class play Monday night at the high school auditorium. The play, "Anne of Ann Arbor," was given by Misses Imogene Crooks, Mary Alice Thomas, Gene Brother and Edna Jones; I. B. Jones, John T. Kimbrough, Brooks Byron and Gorman Sayers. The commencement exercises were held Tuesday night, Dr. W. B. Campbell, of Kentucky Wesleyan College, Winchester, delivering the address. The calss was composed of Miss Imogene Crooks, valedictorian; I. B. Jones, salutarian; Miss Mary Alice Thomas, Brooks Byron, Gorman Sayers and John T. Kimbrough.

Miss Ruth Soper, of Paris, is the guest of Miss Leona Palmer.

Mrs. E. H. Goodpaster left Tuesday to represent the Owingsville Woman's Club at the convention of federated clubs at Hopkinsville this week.

The Rev. and Mrs. E. M. Armitage and children, of Hillsboro, were guests of friends here Saturday.

Miss Kathleen Palmer, of Lexington, spent the week-end with her father, Oscar Palmer.

Miss Virgalline Byron has returned from a short visit with friends in Danville.

Mrs. Reese Wells was in Lexington Tuesday.

Miss Nettie Thomas was in Mt. Sterling Saturday.

Mrs. William Hamilton was in Lexington Tuesday.

Mrs. Leslie Shrout was in Millersburg Saturday.

Mr. and Mrs. Frank Mathias, of Carlisle, spent Sunday and Monday with the latter's parents, Mr. and Mrs. T. S. Barnes.

Mrs. J. C. Riley, of Columbus, O., is visiting her mother, Mrs. Lou Fratman.

Miss Louise McAllister has returned from a week's visit with friends in Lexington.

Arthur Markland, of Paris, is visiting his grandparents, Mr. and Mrs. Nathaniel Markland.

Miss Grace Crooks has returned from a visit with friends in Danville and Versailles.

Charles Stone, of Newport, has been the guest of his brother, Al-manza Stone.
